

With progress comes expansion – and this can be widely witnessed in the banking domain. New banks have mushroomed at an enormous speed to satisfy the growing needs of the well-informed customer. This has also led to several branches opening in various locations all over the country. Millions of bytes are created and stored every minute. Converting data into meaningful information in the shortest period has now become a challenging task for the senior management of financial institutions.

Overview

Management Dashboard is an application conceptualized and developed by C-Edge. This service provides the management of any bank with a consolidated and easy to understand view of their business, thus enabling them to take speedy and accurate decisions. Management Dashboard presents insights into various business parameters with an intuitive data visualization user interface that helps the management to take effective decisions to meet their business goals.

Key Features

- Easy Access on Tablets, Computer's Etc.
- Role Based Access

C-Edge Advantage

- Available on Cloud
- Seamlessly integrated with Core Banking Solution & other channels
- Ready to deploy
- Specialized analytics team
- Secure Framework
- Compliance with regulations
- Multi Front-end deployment (Tablet, Web based etc.)

C-Edge Technologies Ltd is a leading Technology, Infrastructure and Service provider to financial institutions in India and abroad.

C-Edge is a joint venture, between Tata Consultancy Services Ltd. (TCS) and State Bank of India (SBI), to provide transformational capability to the Indian financial services and emerging markets by addressing major technology needs of this industry. We are an integrated solutions provider and have created a niche market for ourselves, in India and abroad, by leveraging the technical and domain competencies of both our parent companies. The rich heritage possessed by our parents has given us many innate advantages resulting in tangible benefits for the banks we serve.
